Dana Jaquith has returned to his home in New Hampshire after three weeks visit in town.

Late Friday afternoon fire broke out in the drying section of the paper mill and caused damage of several hundred dollars. The fire was confined to the drying section of the plant. The alarm brought a number of men from the village who lent valuable assistance, forming a bucket brigade and carrying water from the river close by. The hose of the plant was also utilized and after an hour's hard fight the blaze was extinguished.

Mrs. Henry F. Dimock of this place and Washington, D. C., who is president of the George Washington Memorial association, with headquarters at the national capital, delivered an address in the South-Coventry library hall Sunday evening at 8 o'clock under the auspices of Arthur E. MRS. BRIDGE IS SURE GOLDINE SAVED HER LIFE

AFTER SUFFERING WITH KIDNEY TROUBLE AND RHEUMATISM FOR NINE YEARS, SHE FOUND RELIEF IN GOLDINE NO. 2, THE FAMOUS HERB REMEDY.

After suffering for nine long years with two of the worst diseases in existence, after trying scores of medicines without getting results, and after being told by physicians that the rheumatism was nearing her heart and that her days were numbered, Mrs. Anna Bridge, a lifelong resident of this section, tried Goldine No. 2 as a last resort and found that medicine to be the only one able to relieve her and the remedy which saved her life. This is what Mrs. Bridge says:—

"Three months ago, I was told I must sit back and wait for death which could not be more than a few weeks away. I was told that the rheumatism which has made the last nine years a period of the most terrible agony, was creeping in toward my heart and eventually would stop the heart action. And I was told that there was nothing that could help me. I believed them. I had tried all kinds of medicines for kidney trouble and rheumatism and had got no relief from any of them. But a friend told me I should not give up before getting Goldine No. 2. She brought me a package of No. 2 tablets and I began taking them. I have been taking them ever since and feel sure that they have kept me out of a coffin. I am feeling younger and better than I have felt in years, the pains are almost all gone from my body and the kidney trouble has disappeared. It took some time for the tablets to show any results, but it was worth while waiting for Goldine No. 2. It is a blessing for sufferers from kidney trouble and rheumatism."

Mrs. F. J. Rhodes was greatly benefited by Goldine. Goldine is sold by G. G. ENGLER'S DRUG STORE.

At Dayville there is rejoicing over the fact that the Assawaga Woolen company's big plant is again in operation and giving employment to practically a full quota of hands. This concern is the first to come through the readjustment period in the woolen industry and resume operations on such a scale in this section of the county. It is understood that the company has a considerable list of orders. The resumption of operations at the Dayville mill is taken as a favorable sign that the woolen industry is about to enter upon a revival of activity following the depression of the operation of plants throughout the summer season.

A funeral service for Carl Nelson, who died Sunday while sitting in a chair outside his shack on the outskirts of Goodyear, was conducted by the undertaker of A. F. Wood Monday afternoon by Rev. Hard coal is coming into Danielson a little more freely than has been the case for months past, but this place is still far short of its regular allotment and the coal dealers are without a pound of fuel.

Many compliments are being paid Rev. J. C. Mathieu, of the Sacred Heart church at Wauregan, for the excellence of the arrangements and the success of the Holy Name demonstration at Putnam Sunday. Father Mathieu did much of the work in making ready for the affair.

Lists of taxable property in Killingly are coming into the hands of the assessors. Property holders have this month as the limit for filing their returns.

Hunters are finding many no trespassing notices on farm lands in this territory this fall. Some of the hunters say they do not heed them, in fact, most of them do, while others fail to obey them.

"Making maul" meant something, entirely different in the old days from what it means in this particular part of grace, in this particular part of the country.

Many men who have been out of employment because of the closing of factories have gone into the surrounding woodland country as wood choppers and are daily adding to the supply of fuel that is available for the coming cold weather period.

Fox of this city has been named as the democratic candidate for senator in the Twenty-Eighth senatorial district, made up of the towns of Putnam, Killingly, Thompson, Woodstock, Eastford and Eastford. Announcement was made Monday that the Connecticut company will make another readjustment of fares in connection with a readjustment of payment zones effective on Friday of this week. The new rates will apply to all points on the Putnam lines.

Only one little accident marred the Holy Name demonstration in this city on Sunday. Thomas Demming, 10, of Railroad street, received a cut over the eye as he attempted to cross Main street. May street, and ran into an automobile driven by Norman Mason, of West Thompson. The car was proceeding very slowly and the child was not seriously injured.

At a session of the city court Monday morning, Judge M. H. Geisler imposed a fine of \$20 and a total of \$30.14, upon George Chaffee, who was up to face a charge of having been intoxicated. Chaffee paid. He said that he made a trip over to Pascoag, where the red eye still flows in a dizzy stream.

George Ross, who was injured about ten days ago when the automobile truck he was driving was struck by a locomotive in a grade crossing accident in a Massachusetts town, is recovering steadily from his injuries and has been able to come down town.

Among many messages of cheer that have come recently to elderly women who are patients at the Old Ladies' Ward at the Hartford hospital, was one from Mrs. Sarah Bosworth of Eastford, Conn., a real daughter of the Revolution. Mrs. Bosworth is the great-grandmother of one of the nurses at this hospital and she is what she wrote:

"I am 102 years old and well. Am Elsie Lewis' great-grandmother. I wish you well and happy."

The stream of messages pouring into Hartford hospital have been inspired by a descriptive article telling, some time ago, of the hospital's policy of not receiving patients who are denied many of the pleasures of life that are enjoyed by those who have their health and the free use of their limbs.

Nearly 1,000 women of the towns of Putnam will have qualified as voters in time to participate in the presidential election on November 2. Many of the city's well known men at Hopkin's grove, west of here on Sunday to attend another of a series of clam-bakes that have proved so popular during the late part of the summer season.

Frank E. Cogswell, formerly of Elmville, is the guest of Mr. and Mrs. Leon S. Walker of North Groveland, Conn. Cogswell is now manager for his commercial house and makes his headquarters in Cincinnati.

It was hinted Monday that steps are being taken to iron out some of the difficulties that have been the cause of progress for more than a year and that good progress has been toward a solution of a problem that has been very vexing at times.

Monte Wolf of this city turned company to Gordon Brothers of Worcester, who purchased the business about two weeks ago. Mr. Wolf took this business over his Dayville Grain and Coal business and will have headquarters at that place and with the energy and ability that is characteristic of him built it up.

Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

into one of the finest business propositions in this part of the county. Mr. Wolfe's home is in this city.

Hundreds of automobiles that were driven into this city Sunday to bring participants in and spectators of the Holy Name society demonstration created traffic problems that kept the police officers busy, but the influx that threatened to choke the streets and make them impassable was very successfully handled by the officers on duty.

In the superior court here Wednesday, the case of the State vs. Mulcahey went to trial. This case was the outcome of an accident in which Harold Field and William Moran, two ex-service men whose homes are in Dayville, were injured, both seriously, by being struck and knocked down by an automobile driven by Thomas Mulcahey of Worcester. Though the accident happened on a night in August of 1919, the injured men have not as yet fully recovered.

In connection with the purchase of the Hartford Post by the Hartford Times mention is being made of the fact that John Addison Porter, formerly of Pomfret, was at one time owner of The Post, and of his various eccentricities exhibited in connection with his management of the paper.

It is recalled in a review in The Times that while Mr. Porter was owner of The Post he was in the habit of spending much time in Pomfret. Some times he would remain in Pomfret for days and sometimes for weeks. Frequently he would send letters from Pomfret to members of the staff on his paper, laying down methods for getting out the publication, and it is recalled that on one occasion every member of the staff with the exception of the office boy received a communication from him telling him what to do and how to do it.

When members of the staff compared notes they found that no living set of men could follow the directions laid down and not get a paper. There was a council of war and the men finally decided to ignore the instructions and get out the best paper they could, and that was what was done.

Though Mr. Porter had unusual ideas about getting out a paper he never failed to surround himself with an able staff, and the names of the men employed by him make an interesting list of newspaper workers.

It was related of him by men who had worked for him on The Post that he at times changed employes, but never paid any attention to this, regarding it as a matter of course. He was a man of war and the men finally decided to ignore the instructions and get out the best paper they could, and that was what was done.

At their caucus Monday evening, the republicans of Putnam named Luther N. Keith and Hector Duberger their candidates for representatives. David Flagg was nominated to succeed himself as judge of probate. There were no contests, the caucus lasting only a few minutes.

The best man was Joseph Trosky of Boston. Many relatives and friends were present. The bride received many beautiful and useful gifts. Mr. and Mrs. Marazao will leave immediately for Chicago, stopping at places of interest on their way. The groom is in business in Chicago.
